WILLIAM PEACE & HILLARY MANCINI, PEACE DESIGN

LEFT | In the master suite, a textured wallcovering with a subtle sheen by Phillip Jeffries provided the starting point for designers William Peace and Hillary Mancini of Peace Design. Custom bedding and draperies by Glass House Atelier and a French Deco–inspired chair by Jean de Merry picked up the sophisticated theme. The custom headboard is by Bjork Studio, and art is from Bill Lowe Gallery.

ABOVE | Monochromatic tones and a large pedestal tub with a modern curved design produce a serene master bath. William Peace added sculptural seating, minimal accessories, and artwork by Herbert Creecy from Bill Lowe Gallery. The tub is from ADM Bathroom and flooring is from Stonelluxe.
